

To ensure proper playback of CastNET templates, fonts need to be installed correctly on the CastNET Server, Designer PC and if needed the players.

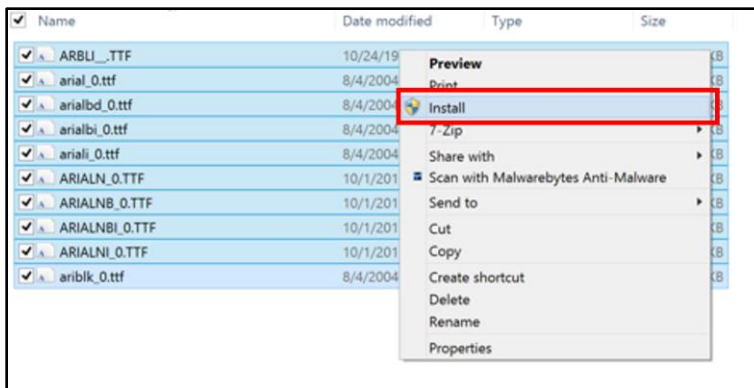

Note: CastNET and Scala based products only support True-Type Fonts. (.ttf)

Installing Fonts on CastNET Server, Designer Computer and Players.

1. Copy desired font or group of fonts to the CastNET Server, Designer & Player if needed.

Name	Date modified	Type	Size
ARBLI_.TTF	10/24/1997 4:42 PM	TrueType font file	65 KB
arial_0.ttf	8/4/2004 6:00 AM	TrueType font file	359 KB
arialbd_0.ttf	8/4/2004 6:00 AM	TrueType font file	344 KB
arialbi_0.ttf	8/4/2004 6:00 AM	TrueType font file	222 KB
ariali_0.ttf	8/4/2004 6:00 AM	TrueType font file	203 KB
ARIALN_0.TTF	10/1/2015 9:25 AM	TrueType font file	172 KB
ARIALNB_0.TTF	10/1/2015 9:25 AM	TrueType font file	177 KB
ARIALNBI_0.TTF	10/1/2015 9:25 AM	TrueType font file	176 KB
ARIALNI_0.TTF	10/1/2015 9:25 AM	TrueType font file	177 KB
ariblk_0.ttf	8/4/2004 6:00 AM	TrueType font file	115 KB

2. To install fonts, right-click on font, select install and this will initiate the install process.

3. Once the install process has been completed you will need to restart the computers where you have installed the fonts. This will make the Fonts available to use.
