

## Vimeo and YouTube Playback Templates

This guide will assist a CastNET User in the proper use of the Vimeo and YouTube Templates. If there are any questions about this, please contact CastNET Support.

### REQUIREMENTS:

- Scala Player Version 10.4.5 or higher
- Scala Content Manager Version 10.4.5 or higher
- CastNET Version v10.5.20150410 or higher

### TEMPLATE DOWNLOAD AND INGEST

Templates need to be download and ingested on the users system.

Templates can be downloaded from these links:

- Vimeo: <https://www.dropbox.com/s/v1yx7vdib90zbay/Vimeo.zip?dl=0>
- Youtube: <https://www.dropbox.com/s/jcqq708nmrqzsn/YouTube.zip?dl=0>

For instructions on installing a template please see this link: <https://vimeo.com/167743099/a4a1f7ab42>

Template Paths are as follows:

- D:\ScalaArt\CastNET\Video\Standard Templates\C10.2\1280x768\Web
- D:\ScalaArt\CastNET\Video\Standard Templates\C10.2\1280x720\Web
- D:\ScalaArt\CastNET\Video\Standard Templates\C10.2\1920x1080\Web

These templates will be available as a standard in CastNET Release 10.25.xx

### TEMPLATE RESOLUTIONS

Vimeo and Youtube Playback Templates are available in the following resolutions.

- 1280x720
- 1280x768
- 1920x1080

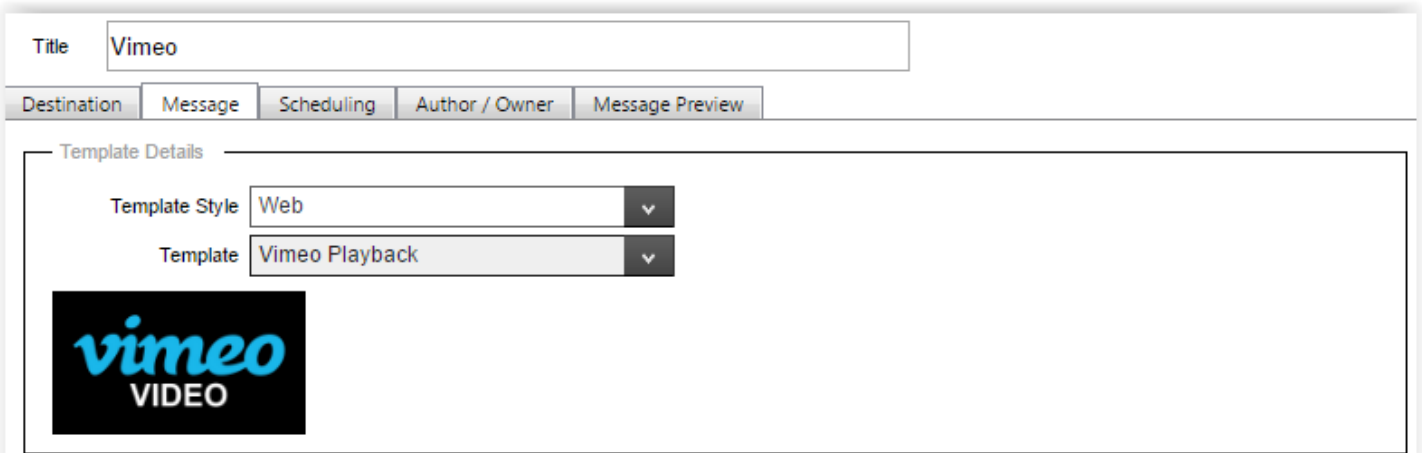

*Instructions on how to use the templates are on the following pages.*

## USING THE VIMEO TEMPLATE

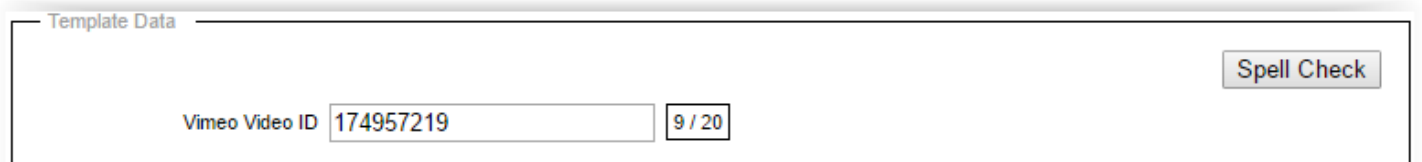

1. Go to <https://vimeo.com> and select the video that you want to use.
2. Copy the String of Numbers in the address bar after vimeo.com.

3. Create a new message in the desired organization with the desired destination(s) selected.
4. Select the Vimeo template in the Message Tab.
  - a. Select the Template Style: **Web**
  - b. Select the Template: **Vimeo Playback**

5. In the Template Data section input the Vimeo Video ID from Vimeo.com.

6. Go to the Message Preview Tab and then approve the message.
7. Message Preview will not show the video feed playing but you can control the duration of how long you want the feed to play.
8. Fill in the duration in the table listed.
9. Approve the Message
